

# 2022 OSWA Annual General Meeting

*Remembering the Past . . . Planning for the Future*

## February 8, 9 & 10, 2022

### Virtual Sessions Tuesday, Wednesday & Thursday Mornings & Afternoons at 10am & 1pm each day

Built upon the success of our 2021 AGM, our 2022 event will continue to be a series of virtual sessions spread over three days! It's a virtual Zoom event with 60-90 minute sessions in the morning at 10am and the afternoon at 1pm for three-days during the first full week of February.

You and your colleagues will be able to participate without travelling, whether you're working from home or in your office. And when your company registers for the AGM, different members of your team will be able to participate in specific sessions that are relevant to different staff members.

Beyond the actual AGM or business meeting our topics will challenge you to think about the future, the future of our industry and you and your company's place within that industry. Peter Norman of Altus Research is expanding his economic forecast and is now studying the impact our industry has in the Ontario economy and construction generally. Andrew Bowerbank of CWC will report on disruption in the construction industry and discuss what the future could hold? Of more immediate impact . . . QC is coming, are you ready? Finally what about new wood products and new applications, some of our members are on the cutting edge . . . The full agenda will follow shortly.

To attend all you will need is a solid Internet connection, computer loaded with Zoom and to be registered with OSWA. Join us as we celebrate the 40th anniversary of our association and consider what the next 40 years will bring!
